

# PERWARE '04

## *Middleware Support for Pervasive Computing Workshop at the 2nd Conference on Pervasive Computing (PerCom)*

Orlando, Florida, March 14, 2004

<http://ciae.cs.uiuc.edu/perware/>

This workshop aims at bringing together researchers in the field of middleware for pervasive computing to discuss new trends for pervasive computing middleware.

### Topics

The workshop solicits papers addressing the following topics:

- Middleware design patterns for pervasive computing.
- Middleware support for user-centric computing.
- Adaptable, recoverable, secure and fault tolerant middleware for pervasive computing.
- Middleware platforms for mobile devices.
- Middleware support for novel pervasive computing application models.

### Submission Guidelines

In order to ensure a high quality technical session, **submissions must cover one of the topics above**, and should not exceed **five pages**. Furthermore, we will prioritize experience papers describing lessons learnt from built systems, including information about approaches that did and did not work, unexpected results, common abstractions, and metrics for evaluating pervasive computing middleware infrastructures.

Submissions of papers are solicited in the **IEEE proceedings format**. Research papers must be original prior unpublished work and not under review elsewhere. All submissions will be reviewed blindly and selected based on their originality, merit, and relevance to the workshop. Accepted papers must be presented at the workshop, and will appear in a combined PerCom '04 workshop proceedings.

Please visit <http://ciae.cs.uiuc.edu/perware/> if you have any questions.

### Important Dates

Paper Submission:	<b>October 1, 2003</b>	Acceptance Notification:	<b>November 15, 2003</b>
Camera-Ready:	<b>December 10, 2003</b>	Workshop Date:	<b>March 14, 2004</b>

### Organizing Committee

Manuel Roman, DoCoMo Labs, USA	Roy Campbell, Univ. of Illinois at Urbana-Champaign
Christian Becker, Univ. of Stuttgart, Germany	Jalal Al-Muhtadi, Univ. of Illinois at Urbana-Champaign

### Program Committee

Peter Sturm, Univ. of Tier, Germany	Gerd Kortuem, University of Lancaster, UK
Philippe Debaty, HP Labs, USA	Max Mühlhuser, Technical Univ. Darmstadt, Germany
Kenichi Yamazaki, DoCoMo Labs, Japan	Peter Tandler, IPSI, Germany
Michael Beigl, TeCo, Germany	Anand Ranganathan, Univ. of Illinois at Urbana-Champaign
